Subject: Retesting

Hi Cameron,

I just received your faxed request to have 2 heroin samples from 1994 resubmitted to the laboratory for retesting. I believe you were informed that the documentation/analytical data no longer exists for these samples so that is the basis for requesting the analysis.

The good news is that the primary chemist in the case still works here, Mai Tran. However, all requests for retesting must be approved by the Director of Analytical Chemistry, Julianne Nassif before we will accept the drugs from the police department.

Hope that helps, if you have any questions please do not hesitate to call me at 617-983-6622.

Elisabeth O'Brien
Evidence Office Supervisor
